YOGESH

Full Stack Developer

✉ kushawahyogesh93@gmail.com   📞 +919389958702   📍 Agra, Uttar Pradesh   🔗 Portfolio   ⊙ GitHub Profile   in LinkedIn

EDUCATION

Master of Computer Applications, *Vellore Institute of Technology*
2027 – Present
(Pursuing)

Full Stack Web Development, *Masai School, Bengaluru*
2024

Bachelor of Science, *Dr. Bhim Rao Ambedkar University, Agra*
12/2022

PROFESSIONAL SKILLS

Communication • Team Collaboration • Problem-Solving •
Time Management • Adaptability • Leadership

TECHNICAL SKILLS

Frontend:
HTML, CSS, JavaScript, React.js, Redux, Chakra UI,
Bootstrap,Tailwind,Next.js,Material UI , TypeScript

Backend:
Node.js, Express.js, RESTful APIs,Authentication

Tools & DevOps:
Git, GitHub, CI/CD, Postman,GCP

AI & Modern Development:
AI Integration (OpenAI APIs), Prompt Engineering, LLM-powered
Application Development

Other:
Responsive Web Design, API Integration,Chart.js

PROJECT

Qurocity - Education Technology Platform
Built interactive learning modules and dashboards, improving user
flow and reducing navigation friction by ~25-30%.
Optimized React UI using advanced component patterns, improving
performance by ~20-25%.
Collaborated with backend teams to refine API integrations, reducing
data load issues by ~30-35%.

VerbiQ-AI-Driven Linguistic Job Platform
Enhanced job-matching workflows with AI-powered features,
improving automation accuracy by ~25%.
Integrated NLP modules for better language categorization,
increasing processing confidence scores by ~20%.
Designed responsive UI components, improving usability and
reducing load times by ~25-30%.

Yogasanas Tracker - Fitness Activity Monitoring App
Designed and developed a frontend-based yoga tracking interface
with real-time pose selection.
Implemented modular UI components and responsive layout for
cross- device compatibility.
Integrated dynamic data filtering and user activity visualization
features.

CERTIFICATIONS

- Full Stack Development - ZMC (Verified Communication Skill)

PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building MERN
applications and improving system efficiency through clean
architecture and optimized APIs. Skilled in React.js, Node.js,
Express.js, and MongoDB with hands-on end-to-end development.
Experienced in leading cross-functional teams, improving UI
performance by ~15%, and delivering scalable features in Agile
environments.

WORK EXPERIENCE

Full Stack Developer & Mentor, *CodingGita* ↗
Present | Ahmedabad,Gujarat
- Build and maintain full-stack applications using modern web
  technologies.
- Mentor aspiring developers through structured coding sessions,
  debugging guidance, and DSA problem-solving.
- Conduct mock interviews, evaluate performance, and help learners
  prepare for technical rounds.
- Review student projects, enforce clean code practices, and support
  architectural decision-making.
- Collaborate with the teaching team to ensure consistent and high-
  quality learning outcomes.

Full Stack Developer, *Qurocity*
12/2024 – 09/2025 | Pune, Maharashtra
- Led full-stack development for key product modules, delivering
  features -15-20% faster through improved engineering practices.
- Guided a 10-member team, improving sprint stability and
  collaboration by ~20%.
- Improved backend-frontend integration, resulting in faster load
  times and smoother data flow.
- Enhanced CI/CD workflow, leading to fewer release issues and
  more stable deployments.

Software Development Engineer, *WILYER PVT. LTD.*
07/2024 – 12/2024 | Gurugram (Delhi)
- Engineered and deployed a dynamic screen-scheduling feature for
  streamlined digital signage content distribution across various
  display units.
- Collaborated with cross-functional teams-including product,
  design, and QA-to transform business needs into effective technical
  solutions.
- Maintained coding standards and version control best practices,
  ensuring alignment with agile sprint goals and deployment
  pipelines.

Full Stack Developer & Mentor, *Masai school*
07/2023 – 06/2024 | Remote
- Designed and developed, responsive web applications using
  modern full-stack technologies.
- Provided coding instruction & mentorship to students, guiding
  them through programming concepts and best practices.
- Conducted mock interviews to prepare students for technical
  assessments and industry hiring processes

Full Stack Developer Intern, *Solar Secure Solution*
04/2023 – 06/2023 | Remote
- Contributed to frontend and backend development tasks using
  HTML, CSS, JavaScript, and Node.js.
- Delivered clean, maintainable code and met project expectations,
  earning a positive performance rating.
