EDUCATION

●● Master of Computer Applications (MCA) | Vellore Institute of Technology | 2027 (Pursuing)

●● Full Stack Web Development Masai School, Bengaluru | 2024

●● Bachelor of Science (Mathematics) Dr. Bhim Rao Ambedkar University, Agra | December 2022

CORE COMPETENCIES

●● Full Stack Web Development (MERN Stack)

●● RESTful API Design & Integration

●● Responsive UI/UX Development

●● Server-Side Programming with Node.js & Express.js

●● Frontend Development with React.js & Redux

●● MongoDB Schema Design & Querying

●● Version Control using Git & GitHub

●● Cross-Functional Collaboration in Agile Environments

●● CMS Interface Redesign & Optimization

●● Third-Party API Integration & Authentication Systems

TECHNICAL SKILLS

🔖 CSS3 | HTML5 | Redux | Express.js | Node.js | Git | React | JavaScript | MongoDB | SQL | RESTful APIs | Responsive Web Design | Bootstrap | Chakra UI

PERSONAL DETAILS

●● **D.O.B:** 20th August 2000

●● **Languages:** English, Hindi

YOGESH

PERSONAL PROFILE

- Full Stack Web Developer with hands-on expertise in building and deploying scalable web applications using the **MERN stack**, with a strong command over **frontend frameworks**, **RESTful APIs**, and **server-side architecture**.
- Proficient in crafting **responsive, user-centric interfaces** using **React.js**, **Redux**, and **Chakra UI**, with seamless integration into robust backends powered by **Node.js**, **Express.js**, and **MongoDB**.
- Success in leading agile development teams of up to 10 members, managing **end-to-end project lifecycles** from requirement gathering and coding to testing and deployment.
- Experienced in delivering **AI-integrated platforms**, optimizing data flows and authentication systems and deploying interactive solutions using **OpenAI APIs** and modern JavaScript toolchains.
- Adept in **version control**, **CI/CD integration**, and performance tuning of both frontend and backend systems, ensuring **scalability, maintainability** and clean code practices.

WORK EXPERIENCE

Full Stack Developer | Qurocity | Dec' 2024 - Sep 2025

- Leading end-to-end development of full stack applications, overseeing architecture, coding, testing, and deployment using the MERN stack.
- Managing a 10-member development team, allocating tasks, mentoring juniors, and ensuring timely delivery of sprint goals.
- Streamlining backend and frontend integration, optimizing performance and ensuring seamless user experience across platforms.
- Managing CI/CD workflows and version control, maintaining code quality, scalability, and deployment efficiency.

Software Development Engineer | WILYER PVT. LTD. | July 2024 - December 2024

- Revamped the content management system's interface to enhance user engagement and ensure mobile-first responsiveness.
- Engineered and deployed a dynamic screen-scheduling feature for streamlined digital signage content distribution across various display units.
- Collaborated with cross-functional teams—including product, design, and QA—to transform business needs into effective technical solutions.
- Maintained coding standards and version control best practices, ensuring alignment with agile sprint goals and deployment pipelines.

Full Stack Developer (Remote) | Masai | July 2023 – June 2024

- Designed and developed, responsive web applications using modern full-stack technologies.
- Provided coding instruction & mentorship to students, guiding them through programming concepts and best practices.
- Conducted mock interviews to prepare students for technical assessments and industry hiring processes

INTERNSHIP EXPERIENCE

Full Stack Web Developer (Intern) | Solar Secure Solution | April 2023 – June 2023
Key Result Areas:

- Contributed to full-cycle development tasks within project modules using HTML, CSS, JavaScript, and Node.js, gaining hands-on exposure to the MERN stack.
- Recognized for delivering clean, functional code and meeting expectations on assigned tasks, resulting in a 'Good' performance rating.

PROJECT EXPERIENCE

Project VerbiQ Website: https://www.verbiq.ai

- Platform designed to offer language-specific job opportunities, including roles in French language support, British English, and other linguistic specializations.

Kitchen Kingdom AI
Live: kitchen-kingdom-ai.vercel.app | **GitHub:** Kitchen-Kingdom-AI

- Developed an AI-powered recipe generation platform that delivers personalized dishes using OpenAI API integration.
- Designed a responsive and intuitive UI with React.js and Chakra UI to enhance usability.

Child Education Hub (Miniminds)
Live: Miniminds | **GitHub:** Algorithm-Samrat

- Designed and developed a fully responsive educational web portal for children with interactive card-based UI components.
- Focused on UI/UX and smooth navigation, enhancing content accessibility across devices.
